Alivia

A saddle design inspired by Manolo Mendez

My motto is Training for Wellness – The Alivia fits right in delivering pure freedom and comfort for myself and my horse.

Manolo Mendez

Wool Flocked Panels The panels are flocked with 100% wool. Allowing the panels to mould to the horse's shape.

"Not only is 100% wool traditional and the most adaptable compound to pack a saddle, it is important for the saddler to have the knowledge of how the biomechanics of the horse work." MM

Ride Pain Free 90% of riders are female, the saddle incorporates the female pelvic system to cater for a correct modern position for the lady rider.

"Men and women are built differently and this saddle is not just for me. My assistant trainer Chantelle tested and approved it too." MM

Thoracic Trapezium
(elevates the shoulder)

Adaptable Gullet

Being adaptable not just 'adjustable' in the width and angle allows for the horse's shoulder to move through the saddle with freedom.

"The two measurements, on the shoulder and behind the shoulder are so important. Peter's new Adaptas is one of the only few in the world that can be adaptable in width and angle." MM

Latissimus Dorsi
A muscle that helps retract the forelimb. A portion of this muscle also sits beneath the saddle area and is affected by ill-fitting saddles.

Deep caudal pectoral muscles

Adjustable Knee Rolls Not only is the saddle a monolap but there is the option to have different size knee rolls to suit.

"This is a great feature as I can change the position of the knee rolls whenever I like." MM

Shoulder Relief Panel The new Adaptas is incorporated allowing freedom for the shoulder to move and flex with comfort and ease.

"It increases the unity and feel, allowing for simpler and more accurate communication, aids and timing and my training has never been more effective." MM

MonoFlap A close contact saddle, you can really feel the horse through the saddle, the leather is durable but soft, ensuring to be long lasting and of excellent quality.

"Underneath me, my horses are free to move without restrictions." MM

Panel Length are designed for each horse individually and can be made to suit the horse's saddle support area.

"The versatility of the saddle is another great plus! The Alivia fits my most narrow horse as well as my big Andalusian stallion with no complaints from either." MM

Welcome to the official schedule for the Peter Horobin Saddlery Equestrian Tasmanian State Dressage Championships & the Dressage Tasmania Affiliate Championships. This year's event will once again be held at the Tangara Equestrian Centre, in Lauderdale.

We are very pleased to welcome Peter Horobin as our Championship naming rights returning sponsor. Tasmanian Dressage is very honoured to have this ongoing support from such prestigious saddlery and it will be wonderful to be able to view their quality products over the competition weekend.

The weekends dressage will include championship classes for the state's best official dressage horses, competing from Preliminary through to Grand Prix. Additionally this year we have included Young Horse Classes and Para Equestrian Classes.

Additionally the weekend we will also run our "unofficial" Preliminary & Novice championships classes as part of our Dressage Tasmania Affiliate Championships. This is open to all members of Dressage Tasmania and/or EA Members.

This event recognizes that there are many riders in our equestrian community that enjoy the sport of dressage but are not competitive members of Equestrian Australia. By broadening our championships and including an unofficial program, we are encouraging many more riders to be involved in the sport of dressage and enjoy the challenge of competing in such a premium and first class event.
