Course Design : Nicky Brown

Judge : Lisa Readett

The course will be built on Wednesday afternoon . If you are able to help with this please be at TEC by 4 pm at the latest . Any assistance would be greatly appreciated.

## Latest Ruling re Helmet Standards - Applicable from 1 January 2017

Except where Sport Rules allows otherwise, riders and drivers competing in an EA competition, must wear an approved helmet with the chin strap fastened at all times. The same is recommended when riding a horse at any time.

Protective headgear must conform with one of the current approved safety standards:

- Current Australian standard AS/NZS 3838 (2006 onwards) provided they are SAI Global marked.
- New Australian standard ARB HS 2012 provided they are SAI Global marked.
- Current American standards ASTM F1163 (2004a or 04a onwards) provided they are SEI marked, or SNELL E2001.
- Current British standard PAS 015 (1998 or 2011) provided they are BSI Kitemarked.
- Interim European Standard VG1 (01.040: 2014-12) with or without BSI Kitemark.

BSI Kitemarked:

SAI Global marked:

SEI marked:

*Outgoing European Standard EN/1384 during 2016 only – not permitted from 2017.*

The accepted safety standards can be found at all times on the EA website and in the General Regulations .

Helmet Manufacturers generally recommend replacing your helmet every 5 years or so.

If you have a hard-blow impact accident while wearing your helmet, immediately replace it for a new model. There may be damage to the helmet that is not visible to the naked eye.

**NOTE 09/11/2016 : It is the rider's responsibility to wear the approved standard. The club/organising committee's role is to take reasonable steps to ensure compliance with the rules by communicating the list of approved standards to their members/competitors when becoming a member or entering a competition.**

It is compulsory for all persons to wear properly fastened protective headgear with three point retention harness at all times when mounted. An Athlete who loses his Headgear or whose retention harness becomes unfastened during the course of his round must recover and replace it, or in the case of the retention harness becoming unfastened must refasten it. The Athlete is not penalised for halting to retrieve his Headgear and/or refasten the retention harness, but the clock will not be stopped. An Athlete who jumps or attempts to jump an obstacle with a retention harness incorrectly fastened will be eliminated unless the circumstances rendered it unsafe for the Athlete to stop immediately in order to refasten the harness (eg if the harness becomes unfastened in the middle of a combination or one or two strides before the obstacle in question. As an exception to this rule Senior Athletes may be allowed to remove their Headgear while accepting prizes or during the playing of the National anthem only; they must refasten their Headgear prior to the lap of honour. It is strongly recommended that Athletes not remove their Headgear during the lap of honour; if they do so, it is at their own risk.
