

LARGE ANIMAL RESCUE TRAINING

Presented by Anton Phillips, World Leader in LAR

Anton is a specialist in Large Animal Rescue with the Hampshire, UK Fire and Rescue Service. He has spent years studying animal psychology and physiology in the hope of developing safer working practices during a large animal rescue. With a strong agricultural and equine background, Anton delivers course participants scenarios and solutions, along with practical exercises. These exercises are invaluable for vets, rangers, emergency services, first responders and owners of large animals.
